Standard Carrier Alpha Codes

[The 2011 SCAC Directory](#) will be issued in February 2011. The *new* Directory of Standard Carrier Alpha Codes (SCAC) provides a listing of more than 74,000 transportation-providing firms and their unique Standard Carrier Alpha Codes. Also included are separate lists of special alpha codes specifically designed to identify privately owned railroad cars, freight containers, and intermodal chassis and trailers. SCAC is a unique two-to-four letter code assigned to transportation companies for identification purposes. It is required for EDI, intermodal interchange agreements, U.S. Customs entry, when doing business with many shippers, on rate tariffs filed with regulatory agencies, government bills of lading, and on bids for government traffic. Supplements are issued quarterly and the directory is reissued annually.

GENERAL ASSOCIATION News

Contracts Seminar Presented by NMFTA General Counsel - *John R. Bagileo*

Counsel John Bagileo provided a one-hour presentation focused on “*Pitfalls of Certain Shipper and Broker Agreements*” at the NMFTA meeting on Monday, October 4, 2010, as part of his on-going Contracts Seminar series. This presentation explored the provisions in shipper and broker agreements that can create possible unforeseen legal and practical implications for motor carriers. Suggested more equitable contract provisions were also discussed. The next Contracts Seminar is scheduled for January 24, 2011 during the NMFTA | CRC | CCSB meetings.

NITL / IANA Expo

NMFTA will be exhibiting at the NITL/IANA Expo in Ft. Lauderdale, FL at the Greater Fort Lauderdale/Broward County Convention Center in Ft. Lauderdale, FL from November 14 – 16, 2010. Visit us at Booth #932.
