### **CRC OFFICER ELECTION RESULTS - NMFTA|CRC|CCSB MEETING IN ALEXANDRIA, VA**

#### *Classification Resource Committee (CRC) officer election results*

Alexandria, VA --- The annual election of Classification Resource Committee (CRC) officers took place during the October 4, 2010 National Motor Freight Traffic Association, Inc. (NMFTA) | Classification Resource Committee | Commodity Classification Standards Board (CCSB) meetings. The officers elected to serve one year terms are as follows:

Robert B. Block	Chairman
David C. Scott	First Vice Chairman
Russell L. Garrett	Second Vice Chairman

The CRC consists of up to 100 members elected from the 50 states, the District of Columbia, Canada and Mexico to represent motor carriers that participate in the National Motor Freight Classification (NMFC). Any officer, owner or employee of a participating interstate motor carrier can become a member of the CRC.

The CRC provides information and other resources to the CCSB on matters relating to the content of the National Motor Freight Classification (NMFC). It provides information on classification research activities, the transportation characteristics of products moving via motor carrier and on motor carrier operations. The CRC may make recommendations and give advice regarding the Policies and Directives for developing and maintaining the NMFC. Like anyone or any group having an interest in the content of the NMFC, the CRC can formulate and submit proposals to amend the NMFC. However, the CRC makes no decisions with respect to the disposition of those proposals.

The next meeting of the NMFTA|CRC|CCSB will take place in January 22-24, 2011 in Alexandria, VA. Both the CRC and CCSB meetings are open to the public and all parties interested in the classification process are welcome to attend.

#### About NMFTA

Founded in 1956, NMFTA's mission is to serve as a research and development organization providing the transportation industry with the necessary information to advance and improve their interests and welfare. NMFTA is committed to helping the industry meet the transportation challenges of today through research, education, and publication of specifications, rules, transportation codes and the preparation and dissemination of studies, reports and analyses.

On behalf of participating member motor carriers, NMFTA's autonomous CCSB maintains the NMFC. NMFTA also assigns the Standard Carrier Alpha Codes (SCAC) and produces SCAC Online as well as Standard Point Location Codes (SPLC) Online. For more information on NMFTA and its products/services, contact us at 866.411.6632, customerservice@nmfta.org, or visit [www.nmfta.org](http://www.nmfta.org).
