CRC OFFICER ELECTION RESULTS - NMFTA|CCSB|CRC MEETING IN ALEXANDRIA, VIRGINIA

Alexandria, VA - The annual elections for the Classification Resource Committee (CRC) Officers took place during the October 2008 National Motor Freight Traffic Association, Inc. (NMFTA), Commodity Classification Standards Board (CCSB), and the CRC Meetings.

The officers elected are as follows:

Michel Belisle, Chairman
James M. Dinsmore, First Vice Chairman
Robert B. Block, Second Vice Chairman

The CRC provides information and other resources to the CCSB on matters relating to the content of the National Motor Freight Classification (NMFC). It provides information on classification research activities, the transportation characteristics of products moving via motor carrier and on motor carrier operations. The CRC may make recommendations and give advice regarding the Policies and Directives for developing and maintaining the NMFC. Like anyone or any group having an interest in the content of the NMFC, the CRC can formulate and submit proposals to amend the NMFC. However, the CRC makes no decisions with respect to the disposition of proposals.

The next NMFTA|CCSB|CRC Meetings will be held in Carlsbad, California at the La Costa Resort and Spa on February 2 - 4, 2009. The CCSB and CRC meetings are opened to the public.

About NMFTA

Founded in 1956, NMFTA is a nonprofit membership organization headquartered in Alexandria, Virginia. Its membership is comprised of motor carriers operating in interstate, intrastate and foreign commerce.

NMFTA's mission is to serve as a research and development organization providing the transportation industry with the necessary information to advance and improve their interests and welfare. NMFTA is committed to helping the industry meet the transportation challenges through research, education, and publication of specifications, rules, transportation codes and the preparation and dissemination of studies, reports and analyses.

On behalf of participating member motor carriers, NMFTA's autonomous CCSB maintains the National Motor Freight Classification. NMFTA also assigns and publishes the Standard Carrier Alpha Codes (SCAC), a unique two-to-four-letter code used to identify transportation companies worldwide, and the Standard Point Location Codes (SPLC), a nine-digit numeric code designed to provide each point originating freight and each point receiving freight in North America with a unique number so constructed as to identify the point with its geographic location.

For more information on NMFTA and its products/services, contact us at 866.411.NMFC (6632), customerservice@nmfta.org, or visit www.nmfta.org.
