THE NATIONAL MOTOR FREIGHT TRAFFIC ASSOCIATION LAUNCHES CLASSIT® MOBILE

Alexandria, Virginia —The National Motor Freight Traffic Association, Inc. (NMFTA) launches ClassIT Mobile, its mobile version of the National Motor Freight Classification (NMFC) publication. This latest iteration of the NMFC product takes ClassIT®, the online version out of the office and into the field. The *Index to Articles* and *Articles Section* of the NMFC are searchable directly using a smartphone's web browser with no additional need to download any applications.

ClassIT Mobile has the same fast, flexible search engine with the embedded search terms as ClassIT. And as with the online version, when you enter a search word or term, ClassIT Mobile also displays the results from *Index to Articles* and *Articles* section in two tabs on the screen. To view an item, you simply tap the hyperlinked description or item number and the item and its relevant headings and *Notes* will be displayed. Or if you already know the item number, then simply enter the number into the search field and the full text of the item, its headings, and *Notes* will be displayed. The integrated density calculator facilitates determining a handling unit's density fast and easy even as it is leaving the docks. Simply enter the extreme dimensions and total weight.

Current ClassIT subscribers are able to access ClassIT Mobile at no additional cost. The same login information is used for both the mobile and online versions.

About NMFTA

Founded in 1956, NMFTA's mission is to serve as a research and development organization providing the transportation industry with the necessary information to advance and improve their interests and welfare. NMFTA is committed to helping the industry meet the transportation challenges of today through research, education, and publication of specifications, rules, transportation codes and the preparation and dissemination of studies, reports and analyses.

NMFTA's autonomous Commodity Classification Standards Board maintains the NMFC on behalf of all NMFC users. NMFTA also assigns the Standard Carrier Alpha Codes (SCAC) and produces SCAC Online. Additionally, NMFTA assigns the Standard Point Location Codes (SPLC) and produces SPLC Online. For more information on NMFTA and ClassIT Mobile, contact us at 800.539.5720, sales@nmfta.org, or visit www.nmfta.org.
